

January 4, 1974

PRESIDENT: Are you asking unanimous consent to bracket your

SENATOR SIMPSON: 377 and 293.

PRESIDENT: 377 and 293 until a time certain?

SENATOR SIMPSON: No just bracket it.

PRESIDENT: All right, are there objections to bracketing those two bills? 377 and 293? Hearing no objections, it is so ordered then. The Chair recognizes Senator Wiltse, for what purpose do you rise Senator?

SENATOR WILTSE: Mr. Chairman, I would like to request the bracketing of 238, indefinitely?

PRESIDENT: 238 to be bracketed indefinitely?

SENATOR WILTSE: It has now been bracketed until the 7th, we would like to have further time for study?

PRESIDENT: Are there objections to bracketing 238, which was bracketed until the 7th, to bracketing it indefinitely? Any objections? Hearing none, so ordered then. Next on the list then for General File debate would be LR19, Senator Carpenter has indicated that he is ready for that. Senator Whitney, for what purpose do you rise?

SENATOR WHITNEY: Mr. President, I wish to reply to your question with reference to LB432. We are presently having the fiscal analyst do some work on this, so I ask that it be laid over?

PRESIDENT: Senator Whitney asking unanimous consent to by pass 432, let's look at 293.

CLERK: Senator Barnett asks to bracket LB66, Mr. President?

PRESIDENT: Unanimous consent motion to bracket LB66? Are there objections? Hearing none, so ordered. LB66 is then bracketed. 513, Senator Kennedy, what is your pleasure?

SENATOR KENNEDY: Yes, Mr. President and fellow members, I would ask that we consider 513 this morning, I can give a very brief explanation, the intent of 513 originally was to do many, many things, but the committee decided....

PRESIDENT: Senator Kennedy, stand by for just a second, let's read the title here first, let's not have you out of order.

SENATOR KENNEDY: Thank you.

PRESIDENT: Clerk will read the title.

CLERK: (read LB513).

SENATOR KENNEDY: I would like to explain very briefly that the Health Department came in the very day of the hearing with a complete revised bill without the Health Committee having any knowledge before hand and we felt at the time, that was not the way to have LB513 acted on, and so we did have a necessity in 513 that we felt must be carried through. We need a clarification of the, and a definition of certain health and care facilities because of the medicare and medicaid program from the federal people. We also needed an opportunity to have licensed another home that would care for some of the people that were coming out of the institution
